"Where They All Go."

**Ladies Beat**

**All Records As Entertainers**

The recent very successful season of lantern entertainments, and enthusiastically supported "national concerts" was concluded by the "International Night" put on by the ladies of the community on the evening of Friday, April 8. Long before the time announced for the commencement Campbell's Hall was filled to capacity and by the time Mrs. J. N. Beaubier explained the character and appropriateness of the programme even standing room was at a premium, many of our leading citizens were hung up on nails, and the overflow crowd had taken on a listening attitude in the anti-room.

Five nationalities, the English, Scotch, Irish, Americans, and Canadians were represented in succession in patriotic and humorous numbers. Space will not permit description of the appropriate costumes, the wealth of hitherto latent talent which was displayed, and the appreciative enthusiasm of the audience.

As a fitting conclusion to the series of programmes, Mrs. Beaubier voiced the sentiments of the assembly, when she expressed in no uncertain terms appreciation of what has been accomplished by Rev. Mr. Oliver in the religious and social aspects of his work. Her remarks were ably seconded by the singing of "He's a Jolly Good Fellow" by the audience. The collection amounted to \$50.00 and as the lantern has been completely paid for by proceeds of previous programmes, the sum remaining after payment of necessary expenses was devoted to the general church fund.

A. S. Roberts has purchased the bankrupt stock of C. Thomas of Barons, and is putting on a sale at that point. H. Cooper is relieving him here.

**A. P. Duncan**

**Laid To Rest**

The funeral of the late Albert Preston Duncan took place from the Union Church, Champion, on Tuesday, April 5th, Rev. J. W. Oliver officiating, the people of the district turning out en masse to take part in the last tribute to one of the pioneers of the district. Mr. Duncan homesteaded here in 1905, and in consequence was very widely known, all the early settlers being his staunch friends. His health failed last year and in the fall he went to Rochester, Minn. for treatment which, however, proved unavailing, and he died at Omaha Nebraska on April 4th, aged 54 years.

The esteem in which the deceased was held in this vicinity was evidenced to a considerable extent by the general attendance at the funeral services, and by many beautiful wreaths, and to an even greater extent by the sincere expressions of regret at his demise heard on every side coupled with remembrances of his geniality and integrity.

**Sanderson School Enjoys Lantern**

The greatest event of the season in the Sanderson school district took place on Wednesday evening when the Rev. J. W. Oliver and Mr. Armstrong took their lantern out to the Sanderson school to give the people an entertainment. On their programme they were ably assisted by the local school children under the leadership of Miss Hoggins, and the Champion Minstrel Quartette.

Needless to say the children and older folks were just delighted with the jokes and songs of the colored men from Zululand and their visit will be long remembered with appreciation by the people of the Sanderson district.

THURSDAY, April 14, 1921.

The council of the Municipal District of Harmony recommends cultivation prior to seeding in order to destroy all weeds which may have commenced germination when seeding operations are begun. The duckfoot cultivator seems to be the most popular implement for this work, but the means is less important than the result arrived at which is to handicap the weeds at the very beginning of the season and save time and trouble later. With other municipal and provincial authorities the council of Harmony recognize the absolute necessity of a general campaign against weeds during the coming season and the enforcement of the provisions of the Noxious Weeds Act. A farming district of such outstanding character as the Champion district cannot afford to be anywhere except in the van of such a movement and in urging an early campaign against the weeds the council should have the assistance and co-operation of every farmer worthy of the name.

While the strike of the miners in England is not yet settled it would appear that there is reason to hope it will not involve the whole industrial system. From this distance it is difficult to judge as to the merits of the controversy, but the application of force in the settlement of such a dispute in the way of general strike does not appeal to the average person as a satisfactory method of securing justice for both sides. There is no limit to the demands which might be enforced by such methods, and the injury is so tremendous to the nation at large, including the miners themselves, that it would appear greater efforts should be made to secure a settlement before the strike method is appealed to.

To judge by the estimates being brought down in the parliament at Ottawa the government does not intend to let anything stop for lack of funds. There is a large section of the community which approves of generous government expenditure on the ground that an economical government Policy would only hasten the arrival of still tighter money. There may be something in this but not enough to justify the continued big appropriations made for work which could be avoided until prospects are brighter. Perhaps farmers will be able to inaugurate an economical programme in the not distant future.

A Foolish Law.

The amendment made by the Canadian parliament, making it a criminal offence for people to have in their possession any kind of firearm, is a loose, senseless and vexatious bit of legislation. It was the extravagant outcome of a panic, and it is a law which should be removed from the statute books.

The law makes it an offence for any person to possess firearms. In all parts of this province, as well as other provinces, most people, particularly in the country, have firearms in their

# LONG LOUIE CAFE!

## Bread For Sale

possession. According to our laws, it is a criminal act, and people have been sent to jail for this sort of an offence. It makes no difference whether the farmer has a small rifle for gophers, or a larger rifle for coyotes, or a rifle which he is keeping as a sacred souvenir of his past. In the war, he is guilty of an offence, because of this unhelpful legislation. Men have already paid the penalty for this senseless bit of legislation.

The Alberta legislature, which has the right of appointing officials, who may grant permits to people to have firearms, is attempting to do something to make the lot of these innocent offenders easier. But that is going only part way. The whole law should be removed, and removed at once.

Other provinces are feeling the effect of this panicky regulation. The Toronto Star refers to the legislation "as a bad for the people and bad for the police, if the latter have in their hands a criminal law which they can enforce or ignore as they see fit in each case. The decline of the present parliament is evidenced by the fact that no member has challenged this law against which there is such widespread and just resentment."—Alberton.

The majority of the people in this country would undoubtedly be liable under the act discussed above. The enforcement of such a regulation being almost exclusively in the hands of the province, however, and the provincial government being far from being in sympathy with such legislation no general action is likely to be taken towards enforcement. In addition provincial regulations with reference to the necessary permits are anticipated which will make them so easily acquired as to largely nullify the absurdity of the Dominion legislation as far as Alberta is concerned.

## Canadian Red Cross Activities

A Red Cross worker in one of the primitive sections of the West made a discovery last summer. She visited a saw mill camp and, while there, discovered two men, one of whom had chopped half his foot off with his axe and was unable to get any treatment for it. The other had suffered a kick in the chin from a mule and the jaw

the other will have a terribly disfigured face.

The Red Cross, organized for peace, will, by its guidance and expert advice, make it possible for all such far away communities to have something like adequate medical and nursing attention of equipping hospitals and nurses' quarters and providing suitable surgical and medical supplies for the treatment of all such and similar cases, whether of accident, disease or what not.

Not only that, but the Red Cross aims to give lessons in first aid to the sick and injured and to teach people who, by reason of the nature of their occupations, must live far from medical and nursing aid, just what they should do to aid sufferers who come within the zone of their influence.

The Red Cross, it is realized, is needed now more than at any other time in the history of the country and it is earnestly hoped by those who are endeavoring to organize the humanitarian forces of the world that western Canadians to the very last man and woman, boy and girl, will join the Red Cross when the campaign is on from June 5 to 11.

## Canada's Railway Problem

Canada has a goodly number of problems awaiting solution on her hands at present, but it is doubtful if any one presents greater difficulties, or is fraught with such danger to the country if not solved, than the National Railway. The annual deficit is so staggering—amounting to almost as much to the total revenue of the Dominion only a comparatively few years before the war—and is increasing rather than diminishing, notwithstanding the heavy advances in passenger and freight rates, that the people have real cause for concern.

Nothing is to be gained now by trying to saddle the responsibility for policies which have resulted in the present deplorable situation, as many party politicians are persisting in endeavoring to do. Each of the two political parties which have guided the national policies of Canada in the past have a share of that responsibility to carry. Both inaugurated policies and encouraged the building of thousands of miles of present unprofitable lines, no doubt with the best intentions and in an honest and sincere desire to develop the vast resources of the Dominion. Perhaps, not least of all, the people are themselves to blame because they demanded the construction of these lines, and approved and supported the Governments which provided for their construction.

It is no use crying over spilt milk. The situation exists, the problem has been created, intended and made the more difficult because of the war. It must now be faced and a solution found.

That solution is not to be found in political bickerings, but in a united and patriotic determination to get at the rock bottom facts. When a man is desperately sick, the first important thing is a thorough diagnosis of the case, and, if it is discovered that severe operation is necessary, to apply the knife with courage and determination. The same thing holds true of the National Railways. If there is mismanagement, waste and extravagance, it must be cut out; if there is a lack of good judgment shown in financial management, or in the operation of the lines, there must be improvement brought about without loss of time; if the service given the public is not such as to merit confidence and attract business which ought to be had, then the service must be improved and made to command public approval.

But it is becoming more and more apparent that these things alone will not have the effect of completely wiping out the annually recurring deficits. First and foremost, all such needed reforms must be effected, but there must be something even more constructive in order to build up the National Railways. To state it concisely, the Federal Government, assisted by all the Provincial Governments, must bring into effect policies that will have the effect of building up Canada and thus build up the National Railways. In other words, the most far-reaching policy must be evolved to encourage and speed up the development for use of the natural resources of Canada from the Atlantic to the Pacific.

Only through the development of our resources can business be created in enormous volume to provide that increase in traffic which will put the railways upon a firm financial foundation. Increases in rates, up to a certain point, may produce more revenue, but raised beyond that point and the effect is to reduce revenue because of the greater loss of traffic. It is open to question whether railway rates have not already been increased beyond the point where they are operating to increase revenue, but are rather adding to the debt side of the railway ledger.

The statement of the Federal Government, in the present session, that the Federal Parliament is doing little or nothing towards developing the rich natural resources of the Dominion. Rather it is "marking time" on the question. Ontario, with its development of the hydro system, and Quebec, with its development of the pulp and paper industries, and scientific agricultural development, are doing more for the enrichment of Canada today by the utilization of natural resources than anything the Federal Parliament is attempting. The development of the natural resources of the Western Provinces is largely at a standstill, while Federal and Provincial authorities debate the question of ownership and control of those resources. The Provinces cannot proceed to develop them because they have no control over them; the Federal Government is not doing so, pending a decision as to the terms and conditions of transfer of such resources to the Provinces.

In the meantime, until wealth lies dormant, and thousands of miles of railways are languishing for traffic, and because it does not exist because of non-development of the resources of the country through which the railways operate. Yet they must operate even though it be at a loss because people have located, few in number though they may be, along the railways for better living conditions, and the means of transportation for themselves and such few products as they have to ship out and such supplies as they require to bring in.

## Fair Wage for Farm Labor

Farmers of Alberta Send Out Questionnaire to its Representative Members.

The United Farmers of Alberta sent out a questionnaire to a number of its representative members in different localities respecting their views on a fair wage for farm labor. The replies are as follows: Mr. J. H. Brown, about \$5 per cent. favor \$40 per month and board as standard recommendation, 10 per cent. favor \$50 and board, and 35 per cent. ranged between \$30 and \$75 with board, the majority favoring the lower figure.

A Prime Dressing for Wounds—In some factories and workshops carbolic acid is kept for use in externalizing wounds and cuts sustained by the workmen. Far better to keep on hand a bottle of Dr. Williams' Electric Oil. It is just as quick in action and does not scar the skin or burn the flesh.

The Children of all peoples, attach most importance to etiquette, their Book of Rules dating back to the first century before the Christian era.

## There's More Than Flavor

Many foods, while pleasing to taste, contain but little nourishment.

## Grape-Nuts

combines with its rich, sweet flavor the full nutriment of wheat and malted barley which makes it an ideal food.

It has been the favorite ready-to-eat cereal for a quarter of a century.

"There's a Reason"

## Constipation and Sluggish Liver

Don't take chances. Get Carter's Little Liver Pills. They never fail to make the bowels move. They relieve constipation, clear the complexion, put a healthy glow on the face and check the spread of the eye. Be sure and get the genuine.

Small Pill—Small Dose—Small Price

## Dining Room Niceties

BY LORETTO C. LYNCH  
An Acknowledged Expert in All Matters Pertaining to Household Management.

"Let's drop in here to-night for a bite—this place looks so inviting." Thus spoke a young woman to her escort.

Now about the home restaurant—the family dining room. Do you try to have all the niceties of the dining room in your home?

In one home, where no attention was paid to looks, the daughter and I bought some linen table cloths—small ones, that just fitted the table. We bought some napkins to match. And we picked out half a dozen pieces of plain white china.

Then we bought half a dozen knives, forks and spoons in a standard pattern so that it might be ordered in other places as need or desire arose.

We bought some stemmed water glasses, a delight to look upon. And in the same shop we came upon a plain cloth with a border of green. We had it filled for fifty cents at the florist's with a collection of dainty little ferns. We selected in another shop two sets of dainty little salt and pepper sprinklers in glass with silver tops.

Later I had occasion to drop into that same home at dinner time. The table was daintily set out. Set for just two. The pretty little ferns we surrounded by four pink candles in glass holders. Daughter did the table setting and the cooking of the simple meal, for that was part of the plan. Daughter and appetites had improved many per cent. And both were so much happier.

There are other folks who serve in the dining room in a kitchen, not quite so much below par as this had been. But it might be well to look into the matter. The shops are showing so many more attractive things for the dining room.

One shop is showing an electric percolator that will make some of the old-time coffee just some thing to just because they have never thought about getting a more attractive, more up-to-date one. I have seen the old things and if you are interested in your home, plan to put into it from time to time some of these dining room niceties.

Miller's Women Powders will clear the complexion of the skin, so that the child will no more be troubled by their ravages. The powders are sweet to the taste and good and child will object to taking them. They are non-irritating in their composition, and while in some cases they may cause vomiting, that must not be taken as a sign that they are poisonous, but as an indication of their effective work.

Many Farm Laborers Required.

Between 4,000 and 5,000 farm laborers will be required on Saskatchewan farms this spring, according to the Superintendent of the Employment Bureau of Labor and Industries. Already, over 1,500 orders for farm help have been received by the various offices of the Saskatchewan Government Employment Service. These orders have been placed in advance for help that will be required in April, when it is expected seeding will be in sight.

Survey of Acres in Prairie Provinces. The surveyed area in the prairie provinces amounts to 35,479,517 acres; in Saskatchewan, 78,954,281 acres; in Alberta, 85,324,466 acres, making a total of 199,757,264 acres surveyed in the three prairie provinces.

A New Bee in England. A strange, new bee, with black and of large proportions, has been found in Hertfordshire. Both the insect and the nest are curious and have never been found in England before.

One British military cemetery in France, just outside Boulogne, contains nearly 12,000 graves.

## The Key Industry

Of Highest Importance That the Agriculturist's Occupation Should Be Made Profitable.

The agriculturist is the one man in the cosmic scheme of things whom society cannot afford to lose. "Lost out" on his job. He is pre-eminently the "key industry" that must be kept going through the rest of the world is temporarily obliged to shut up shop.

It is, therefore, of the highest importance that the agriculturist's occupation should be made as consistently profitable as it is possible for governmental policy and human prevention to make it. To stabilize his calling in this respect is to take a long step toward the stabilization of world industry—the supreme need to-day of our shattered civilization.—Detroit Free Press.

## YOUNG LADIES, READ THIS

If you are bothered with pimples, rashes and ugly blotches on your face, your complexion is flawed, it's an evidence that you require Dr. Hamilton's Pills. The pills are made of these splendid regulating pills, which are a complexion breaker. They check the skin on the face, eyes brighten, you again look the picture of health and beauty. Write for a free trial to Dr. Hamilton's Pills of Mandrake and Butternut, 25c. The Canadian Home, Montreal.

It is an odd coincidence that King George and his four sons, the Prince of Wales, Prince Albert, Prince Henry and Prince George, were all born on a Saturday.

One of the commonest causes of infants is worms, and the most effective application for them is Mother's Own Worm Expeller.

## Milk Factory for Chilliwack.

A factory for the manufacture of powdered milk will be erected in Chilliwack, B.C., shortly. It will have a capacity of 80,000 pounds daily, sufficient to handle the entire output of the district. It is expected to be in operation by May 15th.

## NEW STRENGTH FOR VICTIMS OF ANAEMIA

Loss of Strength Follows When the Blood Becomes Thin.

Anemia is the medical term for thin, watery blood. The sufferer loses strength, becomes short of breath and complains of palpitation of the heart after the slightest exertion, such as walking up stairs. The blood becomes a burden. There is a loss of appetite, the victim loses weight and as the disease progresses the appetite is affected, color fades from cheeks and lips and fainting spells may occur. Anemia is not a disease that corrects itself if unchecked. It grows steadily. But it can be combated by good food, fresh air and a vigorous tone to the blood. As the blood becomes rich and red under this treatment, the symptoms disappear as in the case of Miss Evelyn Joyce, Westville, S.S., whose mother died of leukemia. Her daughter was very delicate, and as the blood became thin, she was suffering from a nervous breakdown. As her father had died of consumption, her friends feared she would fall a victim to the same dread disease. As the years went by and she was merging into womanhood I began to fear that I would lose her. Then I decided to try Dr. Williams' Pink Pills, and I soon saw a change for the better. For the next three years, at intervals, she took the pills, and she was the best of results. Now at the age of sixteen she is a fine, healthy girl and I never tire of telling those who seek the wonderful change in her condition that she owes it to Dr. Williams' Pink Pills.

Miss Joyce herself says: "I give me pleasure to confirm the statements made by my mother. Since using Dr. Williams' Pink Pills I have gained in weight, and a sickly girl, suffering from headaches, dizziness and a languid feeling, I am now as well as other girls of my age, and I never feel unwell again."

Dr. Williams' Pink Pills can be obtained through any medicine dealer, or by mail, at 50 cents a box or six boxes for \$2.50. From Dr. Williams' Medicine Co., Brockville, Ont.

## Nova Scotia Apples.

During the month of February, 1903 barrels of apples were shipped from Halifax, Nova Scotia, principally to the British Isles. This brings the total shipment of the season to 639,666 barrels which is almost double that for the same period last season when 422,825 barrels were shipped. The season's shipment may possibly reach the million mark.

In former times the aldermen and councilors of the city of London included many snuff-takers, and in the library of the Guildhall, free snuff is still supplied to members. It is placed in an ornate snuffbox with a magnificent jeweled lid and handle.

Minard's Liniment For Dandruff

## World Happenings Briefly Told

The demoralization of Russian industries in order to permit of the exploitation of various works by foreign concessionaires, will begin with the British-owned properties. "Canadian coal for Canadian consumers," was the slogan put forward by the standing committee of the Commons on the future coal supply of the Dominion.

Sarah Bernhardt appeared recently in London with her company at the Prince's Theatre in the title role of Louis Veuillot's play "Daniel." Madame Bernhardt received an ovation.

Eight persons were killed and many were injured in La Paz, Bolivia, when Lieut. Daudron, a French army aviator, lost control of his airplane during an exhibition flight and plunged into a crowd.

The Montreal Board of Trade unanimously disapproves of any attempt to stop shipment of wheat from Winnipeg to Quebec by blood. One New York by means of a special rate on the Canadian Railways.

The reply of the United States to Germany on the reparations question has given the greatest satisfaction to French official circles. It is regarded as finally closing the doors to all escape for Germany from avoiding responsibility under the peace treaty.

Greek Archaeologists have unearthed an imposing temple at Corinth. Thessaly. The structure is in an excellent state of preservation and is stated to be as large as the temple of Apollo at Olympia. The bronze inscriptions establish the date of 400 years B.C.

Heart Disease Relieved by Dr. Minner. Dr. Agnew's Remedy for the Heart gives perfect relief in all cases of Organic or Nervous Disease. It is a powerful remedy for Palpitation, Shortness of Breath, Nervousness, Headache, and all symptoms of a diseased heart. One dose cures.

## An Aerial Newspaper

Edited, Printed and Published From Airplane in Flight.

The latest thing in the field of journalism is the Aerial Mail, a daily newspaper, which is edited, printed and published from an airplane in flight. The Daily Mail, which is sponsoring it, says it will contain the latest British and Continental news, political, financial and general, received both at the moment the airplane "takes off" and while it is flying, the news being sent by wireless. A special printing plant has been installed and newspapers will be distributed by means of parachutes. The editions into the air will be the airplane flies over. There probably will be editions for Boulogne, Rouen and Amiens, as well as for the other principal capitals.

Airplanes will leave Paris and London daily, the one leaving Paris to print the Aerial Mail in English and the other from London to print it in French. The newspaper will contain market quotations, racing results and more or less general news of the principal capitals. It will have four pages and will contain advertising as well as "feature" articles.

Men back of the project say that the public is so dependent on newspapers that there is a field for such a service as they propose; but if the present newspaper service is to be improved it can be achieved only by the use of the airplanes.

## Erecting Houses For Employees.

Several Edmonton firms have under consideration the erection of houses for employees, the number of which is contemplated being about seventy-five. They will average in price from \$3,000 to \$3,500.

## EGZEMA

Itching, burning, and smarting eruptions of the skin, known as Eczema, are relieved at once and gradually cured by the use of Dr. Williams' Pink Pills. If you mention this in your letter, we will send you a trial bottle, free. Write to Dr. Williams' Medicine Co., Brockville, Ont.

## FREEZONE

Corns Lift Off with Fingers

Put a little "Freezone" on an itching corn instantly that don't stop hurting, then shortly you'll lift it right off with your fingers. It doesn't hurt a bit.

Four druggists sell a little bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, ingrown toe nail, the toes, and the calluses, without a particle of pain.

W. N. U. 1363

## Warming relief for rheumatic aches.

It's just used Sloan's Liniment and the quick relief has brought a new pleasure to his life. Good for aches resulting from weather exposure, rheumatism, lame back, nervousness, muscle pain, tooth aches, neuralgia. All druggists have it. (Made in Canada)

## Sloan's Liniment

To Europe via Panama

## Passenger Steamer Excursion from Vancouver to Liverpool

Arrangements are being made to run a passenger steamer excursion from Vancouver to Liverpool and other European ports this summer. The journey being made via the Panama Canal. According to the steamship agents who are arranging the details of this trip, it will cost \$300 for one-way passage, or \$550 return, the home journey being to some Atlantic port and thence by rail to British Columbia. The steamer will be the same that a passenger steamer has sailed for Europe from Vancouver. It is expected that approximately 300 persons will undertake the journey.

## Minard's Liniment for Sale Everywhere

## American Farmers at West

American farmers are still in Winnipeg recently from Iowa, Minnesota, North and South Dakota, Illinois and Wisconsin en route to western points. The majority of them emigrated to Canada as a result of having friends in the west. They claim a large number of farmers in the United States are contemplating coming to Canada as soon as present holdings can be disposed of.

The man whose only thought is for himself has little use for brains.

## THAT SUDDEN Sharp Pain

which you experience at the moment when she can obtain relief. Dr. Pierce's Favorite Prescription. Sold by druggists in liquid or tablet form, or send 10c. to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., for a trial package.

Read what this woman says:

"I was very ill and delicate. I was feeling exceedingly weak and miserable and was unable to do my work. I was suffering from Dr. Pierce's Favorite Prescription. I was very weak and delicate. ## Old Fort Ellis and Sioux Indians

Crossing the Plains to Fort Carlton  
Summer 1875.

By O-G-E-MAS-ES (Little Clerk).

(Copyrighted)

(Continued)

Well, I at last had reached a real plain foot, and though I headed this article Fort Ellis is taken some time to get there. But my readers must understand when an old-timer sits down to recall old events, reminiscences pour over him like a flood, and he is apt to wander from his subject, so please forgive me, when I do this, and don't expect too much from the "Mrs Who Shoved the Way".

Fort Ellis was a thoroughly well-built post for defence against hostile Indians, having a sixteen foot palisade with corner bastions and a walk around near the top of the wall made it impervious to savage attack. It was very picturesque, situated on the high bank of the Assiniboine River and commanded a beautiful view on all sides. Chief Factor Archie McDonald, a stern old man, was in charge. His wife was a sister of the well-known Sheriff Inkster and I have pleasant recollections of her kindness to the young clerk. My rather dreaded interview with the chief was over, and I was told to make myself useful in the trading store until such time as council day came. It then might be James Bay or Hudson's Bay, Mackenzie River or New Caledonia, but we were, the Great West before us and adventure lured our souls.

Shortly after my arrival some very unwelcome visitors arrived from across the American border in the shape of some three hundred Sioux Indians. They had been fighting with the Yankees as usual and were treated into British territory. "Pierce looking chaps, simply clad in a breech-cloth and buffalo robe, well armed and mounted on good horses amongst them. One old devil had seven, several of which, judging by the long hair, had belonged to white women. But what interested me, was the young McKays' (my fellow clerk) and myself was the fact of two white girls, both wives of the old interpreter, who were evidently of Scandinavian birth, having fair hair and blue eyes. Poor things, they were Sioux everything but their looks, and had evidently been stolen as babies, probably in the great Minnesota massacre, where no doubt these parents had been killed. They were certainly under twenty years of age and quite attractive in appearance. Mr. Interpreter, however, kept a very careful eye on them, so we had no opportunity even for a mild flirtation, and then we neither of us could speak a word of Sioux.

These Indians demanded provisions from the company, as they were living on dogs and gophers with an occasional porcupine for a treat. But the chief would not get into any of this, he had neither furs nor robes to trade. Finally he gave them some work in building a log causeway to a hay swamp, for which they were to receive pay daily in flour and pemican. Several of the men bowed the chief, but being warriors they considered it infra dig to work, so

it is, and famous workers they were. Every night it was McKays' duty and mine to watch out to each woman, for individual pay in provisions, and there being a number of them this took some time.

Chief Factor McDonald had to leave on a short inspection trip, and before starting left strict orders with his second in command to be extremely careful in dealing with the Sioux, and this was dealing, for we must not only have white men and of them there were three hundred, well maned by the Kitchi-Mokomans (Indian name for Yankees, meaning Big Knives), the "Fingers of the Plains."

Fort Ellis was the headquarters of the large Swan River district with many posts, and one evening as the Indian workers had come in for their pay, a clerk rode in from an outpost, unharmed under the influence of liquor. He had that falling when drink was available, and on this occasion he had met some miners on the trail who were too generous with some alcohol. Most of the Sioux women had been paid their money (in a chief's wife) rather a handsome young creature, was standing in the square, no doubt waiting for her friends. Her husband had just been riding up, and she had just seen her husband being ridden up by the heavy cloth skirt pulled this way and that, and she was riding up her bare person with his riding whip. Some of the other women ran to her help and managed to loose his hold. By this time, hearing the word, we had run out from the shop. The woman's face was a sight. She certainly looked murder and sudden death, while pouring out a torrent of Sioux words. Then with the women away they went running for the Sioux encampment, giving what we knew afterwards to be the Sioux war cry. Out came the men like a swarm of bees, grabbing whatever weapon came to hand, her husband being prominent. As she met him, he don't she told him of the dreadful insult (for there is no greater crime with an Indian than dishonouring his wife) exposing their nakedness. Mr. Clark, in his drunken fashion, had run after the women, while the company's men who came hurrying up, were endeavoring to get the big gates closed. It was too late. Fortunately we had two men who had been riding with the plains and hid him in a safe spot. Within a few moments the inside of the company's building was filled with armed and naked Sioux giving their thrilling war cry, "Yallahhah."

Most ferocious looking devil grabbed me by the hair and swung off my feet, while his tomahawk was playing circles round my head. Gouldie Harper, one of our old plainmen, tried to just put our hands down and take it. This I did, and finally some of the men rushed in and began to kick the young warriors who were evidently thirsting for blood, especially for Mr., who was the chief of the party.

(To be continued)

## Looks for Higher Freight Rates

Chairman of Railway Commission  
Advocates Immediate Adjustment  
With Labor.

Vancouver—Only by dispensing with unnecessary train services and by reducing wages, can freight rates be brought down, Hon. F. B. Carroll, chairman of the Dominion Railway Commission, told members of the Kiwanis Club, in addressing them here.

"We have built too many railways. There is too much duplication of services. These must be cut down, and the problem is where to begin. The people want lower freight rates, but they will not permit us to cut off costly Sunday trains without a howl of protest. The country must make up its mind that some services must be foregone if rates are ever to come down," he said.

"Next to the unnecessary train services," he continued, "the greatest factor in maintaining high rates are the wages which have to be paid as the result of the McKays' strike of 1918, and the Chicago award of July, 1920. There are station agents on the Canadian National Railways who make more than \$120 a month, but who are making from \$25 to \$125 a week as the result of overtime."

"If the public is willing to have these things go on, then it cannot look for any decrease in freight rates. Not only this, but I have no hesitation in saying that rates will go higher yet. The railways simply cannot make ends meet on even the present high rates, if they have to operate unnecessary trains and pay such exorbitant wages," Mr. Carroll declared.

## Validates Transcontinental

Division of Traffic Now Going  
Through U.S. Is Sought By Senate.

Ottawa—The Senate discussed the National Transcontinental Railway and the diversion of Canadian traffic through United States ports. Although no definite action was taken on the latter request, the City of Ottawa, however, has approved of the necessity of immediate investigation into such diversion.

The subject was in continued debate on the export trade of Quebec. Senator Lorne Webster said that the contract between the National Transcontinental and the City of Quebec, made in 1904 and confirmed in 1910 was unsatisfactory.

The Transcontinental had reduced the distance between Quebec and Winnipeg by 200 miles and had reduced the grades. Since 1916, however, not a bushel of grain had come from the United States to Quebec. The water and rail rate from Winnipeg to New York was 33.9 cents per bushel and all-rail from Winnipeg to New York was 35 cents.

In recent years there has been shipped from the west 1,096,000,000 bushels of grain and of this amount 118,000,000 bushels had gone via New York. Of the remainder, a great deal was manufactured into flour, leaving only a small quantity exported through Canadian ports. This discrimination was unfair, as the Canadian water routes had been made merely by aid to navigation. The matter called for immediate investigation.

Sensor J. P. H. Casgrain said that debate vindicated the policy of the construction of the Transcontinental Railway. That railway had shortened the mileage between Winnipeg and Quebec by 220 miles and shortened the time of travel by 14 hours, and was one of the greatest railways in the world. It should be utilized to a greater extent and there should be less talk about the "crazy scheme of deepening the St. Lawrence channel."

## Veterans Make Request

Full Army Pay Is Now Urged For  
Jobless Soldiers.

Ottawa—Payment by the Government of army pay and allowances to all unemployed ex-servicemen, until such time as they are offered work commensurate with the physical condition, was urged upon the special re-employment committee, by J. E. Marsh, representing the Grand Army of United Veterans. Mr. Marsh declared that men were starving in Canada and Ireland and were available for work. They did not want dole or charity, and the Government should provide them with means of subsistence.

## R.C. Liquor Control Act.

Victoria—The new liquor control act, which was passed by the British Columbia legislature, will be reduced shortly to three days.

## Soldiers' Re-Establishment

Hume Cronyn (London), who was recently reappointed Chairman of the Special Committee on Soldiers' Civil Re-establishment.

London—Endorsing the Archbishop of Canterbury's recent protest in the House of Lords against reprisals in Ireland, nine bishops and heads of the principal non-conformist churches in Great Britain have sent a letter to the Prime Minister and Irish Secretary, pleading for peace in Ireland.

## Pleading for Peace in Ireland

Archbishop of Canterbury's Protest  
Against Reprisals Is Endorsed By  
Non-Conformists.

London—Endorsing the Archbishop of Canterbury's recent protest in the House of Lords against reprisals in Ireland, nine bishops and heads of the principal non-conformist churches in Great Britain have sent a letter to the Prime Minister and Irish Secretary, pleading for peace in Ireland.

"The present policy," says the letter, "exposes us to misunderstanding and hostile criticism even of the friends of the world's nations."

The signatories include the moderator of the Scottish United Free Church, and the chairmen of the Congregational and Baptist Unions of Great Britain, the Wesleyan, Methodist and Presbyterian Churches and the Society of Friends.

## Trouble Over Catholic Unions

Member for Quebec East Says That  
Minister of Labor Has Been  
Unfair.

Ottawa—Demands for the resignation of Hon. G. D. Robertson, minister of labor, were made during a debate on the subject of Catholic Transnational unions, precipitated in the House of Commons on a motion to go into supply, by Ernest Lapointe, member for Quebec East.

Mr. Lapointe declared that the minister of labor had been unfair in his treatment of the delegates from the national unions and that he had discriminated against them in favor of the internationalists. The National Union had asked for representation in the forthcoming building trades conference, and only the delegates from the internationalists had been refused, but the deputations had been informed by the minister that the internationalists were dangerous and would cause racial and religious strife.

## Turkish Cruelties

Understood That Britain Will Make  
An Official Protest Regarding  
Atrocities.

London—An official British protest is understood to be in prospect as a result of alleged Turkish cruelties and atrocities on Greek and Armenian Christians in Asia Minor. Terzianism is reported to prevail in Caesarea, where many Greek and Armenian Christians were killed. It is stated that a number of charges and counter-charges from the Greeks and Turks have been received in British quarters throughout the period of hostilities. The Greek charges are said to have been sustained and the British protest will be made direct to the Turks.

## Calgary Teachers' Strike Is Off.

Calgary—The Calgary teachers will not strike. Another long discussion ended in a decision to accept the offer of the school board for advances totalling \$40,000, under protest. The teachers had previously agreed to accept a \$650 compromise, which would have brought increase totalling \$97,000.

## Recovers His Speech.

Montreal—Paul Robertson, of Brooklyn, former soldier, who lost his voice after being shell gassed and gassed in France 21 months ago, suddenly recovered his speech here recently.

## Short Time For Railwaymen.

Moncton, N.B.—It was announced here that the working hours in the Canadian National shops at Moncton will be reduced shortly to three days a week.

# Great Britain Is Now Facing Grave Industrial Crisis

## U.S. Farmers Get Together

Unanimously Endorse the Co-operative  
Market for National Goods.

Chicago—Representatives of the farmers in convention voted unanimously to accept the report of the committee of 17 which provided for formation of a co-operative agency to market the nation's grain.

The report was adopted after a two-day fight in which delegates sought to have it amended so that pooling of grain by the farmers would be compulsory instead of optional as provided in the report. An amendment to that effect was defeated by 61 to 38.

Another amendment offered by Carl Williams, of Oklahoma, that the pooling be made compulsory in states where wheat is the predominant grain, also was defeated, and the convention unanimously adopted the committee report.

## Huns In A New Role

German Are Now Desirous of Making  
Amends for Damage  
Wrought.

Berlin—The government has arrived at a decision in regard to reparations in connection with the French devastated areas. This plan has been carefully worked out by the government officials and industrial experts who have reached complete accord with regard to the methods of rebuilding and the necessary material, and the questions of labor.

In making the announcement on behalf of the government, an official declared that the government was sincerely of its purposes, which have often expressed, and do whatever is in our ability toward rebuilding the devastated districts.

Details of the scheme will be announced shortly.

## Moderate Claim of France

Viviani Says French Really Entitled  
to One-Third More Than Amount  
Offered.

New York—A defense of the French claims for German reparations is made by Rene Viviani, ex-vice president of the United States and the New York Chamber of Commerce.

"Germany has contracted debts; she shall pay them," he declared. "Contrary to the general belief, the problem is not only for France and Germany, but the world, because peace will only flourish when the debts are repaid."

Speaking of Germany's claims that she is being taxed beyond her capacity to pay, he said: "Some have said that the claims of France were exorbitant. It is a lie. French experts have, since the treaty, lowered the claims and reduced their rights. France has abandoned more than half of that which she has the right of asking for, and generous time extensions have been given Germany."

Emperor Charles Reaches Switzerland  
London—Former Emperor Charles has arrived at Lucerne, Switzerland, according to a Zurich dispatch to the Exchange Telegraph Company. He was accompanied by the former Empress Zita, who met him at Bern. Charles appeared to be in a very cheerful condition.

Hungarian Ministry Quits.  
Budapest, Hungary.—Announcement was made today by the ministry of the Count Paul Teleki. The crisis which developed in connection with the recent attempt of ex-Emperor Charles to regain the throne, resulting in a serious split between the Royalist and the Republican factions in the Government, is assigned as the reason.

## U.S. Claims Right to Participate In Peace Settlements

That It Did Not Join League of Nations Is Thought To Be No  
Barrier.

Washington—Failure of the United States to ratify the treaty of Versailles, will not be allowed to detract from that country's right to participate in peace settlements, Secretary Hughes declared in notes addressed to Great Britain, France, Italy and Japan. The note to Japan differed from the others, in that it referred more specifically to the Japanese demand over the Island of Yap.

All four notes reiterated the contention that the United States had sacrificed no rights in the peace settlement, and that the confirmation of the mandate in question and the definition of its terms by the Council of League of Nations in December, 1920, cannot be regarded as having effect with respect to the United States.

## Reigns From House.

Ottawa—Sir Thomas, while he resigned his seat in the House of Commons.

Hardly necessary to suggest that a treaty to which the United States is not a party, could affect those rights.

Continuing, Secretary Hughes said: "As the United States did not enter into this council or to any treaty relating to the subject, this Government is unable to understand upon what ground it was thereafter attempted to counter the mandate with reference to the Island of Yap."

It is manifest that the League of Nations was without authority to bind the United States, and that the confirmation of the mandate in question and the definition of its terms by the Council of League of Nations in December, 1920, cannot be regarded as having effect with respect to the United States.

## Gigantic Irrigation Project

Irrigation Scheme to Cost \$7,500,000  
Is Financed For Alberta.

Calgary—Word has been received from the London offices of the Canada Land and Irrigation Company, Medicine Hat, that satisfactory financial arrangements have been made for the largest construction programme for its irrigation project, undertaken for some years. This will include construction of distribution systems for many thousands of acres served by the main ditches. This is a \$7,500,000 project, which has been under way for ten years.

## Canada's Fuel Problem.

Vancouver—Dealing with Canada's fuel problem in its national and international aspects during an address before the University of British Columbia, Arthur V. White, consulting engineer of the Commission of Conservation of Canada, strongly urged that special effort be made to increase storage of coal in the summer months.

## Take Arms From Dublin Police.

Dublin—All the arms and ammunition in possession of the Dublin Metropolitan Police have been collected by the military authorities.

It is considered unlikely that they will carry arms in the future, owing to their recent disarmament at the hands of rebels.

## U.S. Ammunition in Ireland

Discovery of an Underground Dump  
In Dublin.

London—Methods by which the Sinn Feiners are receiving arms and ammunition have been disclosed by the discovery of an underground dump in Dublin. Ammunition boxes found there bear the stamp of a powder mill in Massachusetts.

The boxes, the newspaper asserts, were shipped by Irish-American sympathizers who had established warehouses in connection between gun runners on the west coast of Ireland and in the United States.

## Ralph Connor's Motion Picture.

Calgary—The first picture production based on Ralph Connor's novels to be marketed, is "Canon of the Rockies," which was sold recently to the First National Company of New York, with an initial payment of \$125,000.

## Canada Ratifies Protocol.

Geneva.—Canada has just signed the protocol relating the statutes of the International Court of Justice, in action bringing the number of states which had adhered to the court, up to twenty-eight.

## White Gives Reason.

Montreal—Sir Thomas White stated that the importance of the work of the Grand Trunk Railway was the reason for his resignation as member of parliament for Leeds.

## Local & General

The major ball leagues are again in action, the first games being played on Wednesday.

The weather for the last few days has been so extraordinary pleasant that anyone could be excused for claiming this as the best climate in the world when it is nice. However, like the little girl with the little curl, when it's bad it's horrid.

W. A. Schultz returned from Winnipeg on Tuesday night's train. He says the country is still very wet as the result of recent severe storms at Manitoba and Saskatchewan points and that seedling operations will be considerably delayed in consequence.

The town park has been thoroughly cultivated and fencing operations under way will when complete advance the park proposition to a stage where actual beautifying processes will begin. Trees are to be planted this year, while a large portion of the plot will be available for gardens.

The municipality is urging special cultivation this spring prior to seeding to give the weeds a set back, as enforcement of the provisions of the noxious weeds act is imperative during this season and there is little use of sowing crop which will later have to be plowed down on account of the weeds.

Seeding operations may be said to be general throughout the district, beginning with Monday, April 11th. Many did not get on the fields at the beginning of the week, but considerable work had been done earlier in the season, so that Monday might reasonably be regarded as an average date.

The extent to which Chronicle "Want Ads." are utilized by the public of Champion and vicinity is a matter of pride to the publishers. The success attained by advertisers is so outstanding that it would appear that this method of reaching the public will continue to grow. For the price the service rendered is really remarkable.

The spring clean-up is in progress all over the village and soon will be advanced to the stage where conditions will be a matter of general pride. The necessity of preventing accumulations of filth and refuse, from a health standpoint alone, is so obvious that householders have no possible excuse to fail in complying with the regulations of the council.

Beginning Wednesday, May 11th, the regular half-holiday will be observed during the summer months by the merchants of Champion, the stores closing at one o'clock.

Mrs. Holman is building an addition to her residence.

## Dressmaking

Style and fit guaranteed. Apply to Mrs. T. B. Jopling, Phone R. 120, Champion.
